- Krystal Campbell - <http://www.krystalcreekriding.com/> Pitt Meadows
778-858-5909 or kc@krystalcreekriding.com
- Janina Nenadic - Insured BHA Coach - Burnaby - 604-802-3255 janinadall@mac.com
- Beginner to Advanced – dressage, jumping, trails, western, bareback

ACTING

Finding an acting teacher is as individual as finding a doctor or trainer. Connection counts. So do results. Too many training actors confuse 'liking' their instructor with progress in developing acting skills. The test is pretty simple - do you book more, or less? If the student isn't booking more, the training, even if very enjoyable, will not help them meet their career goals. Luckily there are a lot of teachers in town. The odds are very good that everyone can find someone who can really help them. A measure of a good teacher is their own professional experience. The best instructors most often have acted themselves. In Vancouver this includes some of the following schools and instructors:

- Act Vancouver - Patrick Sabongui - <http://actvancouver.com/index.html>
- Actor’s Foundry - <http://actorsfoundry.com/> - Mathew Harrison
- Ben Ratner Haven Studio - <http://benratner.com/bonus.html>
- Ingrid Torrance - <http://www.ingridtorrance.com/coach/teacher/>
- Lori Triolo - The Art of Acting - <https://www.facebook.com/pages/Lori-Triolo-The-Art-of-Acting/116846671699610>
- Railtown Actors Studio - <http://railtownactors.com/> - John Cassini, Kerry Sandomirsky & Kate Twa
- Vancouver Acting School (VAS) - <http://schoolcreative.com/program-departments/acting/>
- Vancouver Institute of Media Arts (VanArts)- <http://www.vanarts.com/staff/chilton-crane> - Chilton Crane

RIGGING - COURSE SUPPLIERS & RELEVANT COURSES

Actsafe - <http://www.actsafe.ca/courses-certifications/> (*subsidised for film industry workers!)

- Aerial Platform (inexperienced & experienced),
- Forklift training
- Fall Protection

Pacific High Rigging and Safety Limited - Perry Beckham - <http://www.perrybeckham.com/>

*Courses are catered to Film Industry workers, including stunt riggers, coordinators & performers – Squamish.

- Introduction to Occupational Health & Safety (OH&S)
- Fall Protection & Work Positioning
- Fall Arrest
- Rescue Tower Climbing and Rescue
- SPRAT Rope Access Level 1-3

Cardiac Arrest Management (CAM) –

ACTSAFE - <http://www.actsafe.ca/courses-certifications/> (*subsidised for film industry workers)

“SUPERVISOR COURSES” (Stunt Coordinators, Key Riggers, etc.):

BC FEDERATION OF LABOUR COURSES FOR SUPERVISORS:

<http://www.healthandsafetybc.ca/files/uploads/2015HSC-Courses.pdf>

Occupational Health & Safety Level 1 (OH&S Level 1) – 8 hrs. COST : \$115

- This introductory OH&S course introduces the basic principles of workplace health & safety.
- Learn the legal responsibilities, duties and functions of the Joint OH&S Committee.
- Learn about health & safety legislation (Prov. & Fed.), workplace parties' rights & responsibilities.
- Be updated on changes to health and safety legislation.
- Learn about principles of workplace assessment and control strategies.
- Locate existing health & safety resources.

Occupational Health & Safety Level 2 - (*prerequisite OH&S Level 1) – 8 hrs. COST: \$115

- Learn about Human Health, Routes of Entry and Musculoskeletal Injuries.
- Explain Hazard Identification, Assessment & Control principles. (Inspections, Job Safety Analysis, Work Procedures and Hazard Reporting Methods).
- Discuss legal requirements (Prov. & Fed.) & elements of an effective Health & Safety Program.
- Learn concepts around Hazard & Risk Assessments.
- Learn hazard control principles, setting priorities, hierarchy of controls & developing recommendations.

Supervisor Health & Safety Responsibilities – 8 hrs. COST: \$115

Supervisors play a critical role in the workplace because they have the authority to oversee the work of others. Supervisors have considerable responsibilities under Occupational Health & Safety Legislation. A supervisor is required to be qualified by knowledge, training and experience in the work they oversee; be familiar with the legislation that applies to their workplace and knowledgeable about actual or potential workplace hazards, so they can in turn advise workers about these hazards.

- Discuss legal requirements and responsibilities (Provincial & Federal).
- State the supervisor's role in addressing work refusals and conducting investigations.
- Identify the supervisor's role in conducting workplace inspections.
- Learn the principles of demonstration of “due diligence”.

****This program also reviews relevant case law and provisions of the Criminal Code of Canada (Bill C-45) to help participants better identify types of work that are supervisory in nature and their related legal duties, and understand the consequences of non-compliance.*

Incident Investigations – 8 hrs. COST: \$115

When an incident or "near hit" happens at the workplace an investigation by the employer and the OH&S committee must take place. Incident investigation is a serious matter. It is your responsibility to gather the facts, objectively assess those facts and arrive at appropriate solutions to prevent future incidents. How do you conduct an effective investigation? This course will aim to improve your investigative skills, determine 'root causes' and develop effective recommendations. In this course participants will:

- Name legislation requirements (Provincial & Federal) for incident/accident investigations.
- Examine the principles of incident causation.
- Learn how to conduct a proper investigation by gathering the facts.
- Learn how to analyze the results of your investigation & determine contributing factors and root causes.
- Learn how to prepare reports and develop effective corrective actions.
- Conduct a class incident investigation and put theory to practice.

Understanding & Conducting Risk Assessments – 8 hrs. COST: \$115

Legislation requires all employers to assess risk in the workplace in a variety of situations. This course will cover when a risk assessment must be completed and will give participants hands on experience in a variety of different methods of conducting risk assessments. In this course participants will:

- Learn about the risk assessment process specific to hazard identification, analyze and evaluate the risk associated with the hazard and determine appropriate ways to eliminate or control the hazard.
- Learn in practical terms that a risk assessment is a thorough look at your workplace specific to things that may cause harm to workers.
- Summarize hazard prioritization and precautionary principles.
- Learn how to generate awareness of hazards and risks.

ACTSAFE COURSES FOR SUPERVISORS (and performers too!):

Motion Picture Safety Awareness – \$25* (+ GST) *THIS COURSE is FREE as of Sept 1, 2015!*****

<http://www.actsafe.ca/courses-certifications/>
